4  </title>
5  </head>
6
7  <body>
8  <h2> This a Heading</h2>
9
10     Hello.  This is not a very exciting document.
11  I
12     bet you were
13         expecting <em>
14
15  poetry</em>, or
16
17         some kind of <strong> exciting <br>
18  fact</strong> about the Internet and
19  the World Wide Web.
20
21  <p> Sorry, No such luck.  This document
22  does
23  contain examples of HTML markup,      for example, here is
24
25  <ul>
26      <li> One item in
27
28          the list
29  <li> A second list item <li> A third list item that
30      goes on and on and
31  on to indicate that the
32
33      lists can wrap right around the page and still be
34  nicely formatted by the browsers.
35  <li> The final item on the list
36  </ul>
37  <p>Lists are exciting.  You can also have
38      ordered lists (the items are numbered)
39      and description lists.
40
41  <hr>
42  <p>And you can draw horizontal lines, which are useful for dividing
43  sections.
44
45  </body>
46  </html>
